Election Day 2026: Why We should Vote!!!!

I don't know where to begin

Let's begin with the dream

Whose dream?

Can the dream be shared?

Or must it live alone in the hearts of children.

Or should it be deferred?

Or realized in our own time?

Or is it like the raisin in the sun…

Is it a dream that we all can have?

How to make it a reality:

Love, care, study, grieve, change, compassion.

Can we stand the pain?

Give us strength to find ourselves.

Let us begin.

Let us choose to be the truth.

Let us choose to search the truth.

Let us choose to receive the truth.

Let us choose to debate the truth.

Let us choose to respond with respect and caring for the unknown.

Let us choose to accept the truth.

What it may be, where it might come from,

When it appears,

Where it would lead.

Let us cherish the dream of the children.

Let us make the dream our reality.

For what is a dream?

It is a beginning.

When it comes true, it is an ending.

It is a new reality.

But the work is never finished.

Eternity has no ending.

Until everyone is free.
