In the event that no candidate in an election between more than two candidates receives more than 50% of the votes cast by the relevant constituency, Board of Elections and Appointments can choose to do a Ranked Choice Election or an appointment with the remaining candidates.
- B. In any election where there is more than one winner, the winners shall be chosen from the candidates receiving the highest number of votes until the number of winners corresponds to the number of positions being elected.
- C. In the event that aforementioned circumstances necessitate Ranked Choice Voting, the following procedures shall be carried out:
 - a. For a single winner election, the candidate receiving the least number of votes shall be eliminated from the race and the second preference votes cast on all ballots for which this candidate was a first preference shall be distributed among the remaining candidates. If at this time the candidate with the most votes has received over 50%, this candidate shall be declared the winner. Otherwise, this process shall be repeated until a candidate garners over 50% of the vote. In the event of a tie between two candidates, in which each candidate has received 50% of the total vote, excluding abstentions, the candidates shall be required to come to a Board of Elections and Appointments tie-breaking interview. The Board of Elections and Appointments will then determine a winner to present to the VSA Senate.
 - b. For a multiple winner election, the same system shall be followed as above, with the slight modifications necessary due to the extra candidates. This system shall follow the traditional Ranked Choice Voting method for these types of elections until there is the correct number of candidates desired holding enough votes.
- D. In the event that any winning candidate is disqualified for violation of these Bylaws, a run-off shall take place using the same voting data collected from the election in which the candidate in question was a member. The disqualified candidate may not be considered in this run-off election, however, those ballots listing said candidate as a preference will be counted toward their next listed preference. If there is only one candidate remaining in the race, then the remaining candidate will be declared the winner.
- E. In a referendum vote, the article shall be deemed to have passed if a majority of those voting has voted in favor of the article, not including abstentions.
- F. The Board of Elections and Appointments Chairs shall post and publicize all results within 24 hours of the end of the voting period. Individuals, including candidates, shall not be notified of results until such results are publicly available.
- G. Write in votes shall not be counted if they do not refer to an eligible student.
- H. In the event that any position has not been filled during the Spring Elections, the Board of Elections and Appointments will meet to review applications and appoint individuals to those positions. The Board will inform eligible candidates of the open position and explain the application procedure. The Board will then meet several days later, to allow interested applicants time to fill out the application form. If there are no applicants, or if the Board cannot select an appropriate individual, the position will remain open until the following school year, when the process will repeat.
